Fiberglass, Aluminum and Plastics... Let TAG Be Your Manufacturing Partner

Over 1300 independent North American accessory retailers, as well as Ford, Chrysler/Dodge and Toyota choose Truck Accessories Group brand products. TAG's facilities provide high volume, quick turnaround to market manufacturing with the advantage of regional service and distribution.

With enduring financial strength and stability for the long haul, TAG is ready to meet *your* manufacturing challenge today.

TAG Capabilities

Fiberglass Design and Production:

- In-house product design and engineering
- Mold patterns created using one of the largest CNC routers in the industry
- Skilled pattern makers for hand crafted details
- Fiberglass masters for consistent mold duplication
- Hand build, finishing and maintenance of production molds
- Robotic gel-coat and waterjet processes
- Fiberglass layup by hand with mat or chopped strands, using neat or filled resin systems
- Fiberglass reinforced to meet specified structural tolerances
- Two-stage automotive "Class-A" painting and finishing

Aluminum Fabrication and Assembly:

- Custom square-tube aluminum bending, shaping and cutting
- TIG welding of aluminum parts
- Precise fit-and-finish application of sheet aluminum to square tube frames
- Application of custom high-gloss automotive paints, mixed to customer specifications

Door, Hatch and Window Manufacturing:

- In-house product design and engineering of custom size retractable doors and covers
- Fabrication and assembly of complete retractable multi-panel doors, access covers and security shutter systems to customer's specifications
- Spring mechanical or motorized operation systems
- Custom glass shapes, tints, thicknesses and tempers, available with premium hardware
- Precision bending and cutting of aluminum extrusions
- Assembly of ready-to-install hardware, frames, glass and gaskets

Plastics Fabrication and Assembly:

- Thermoformed plastic parts
- Quality high temperature molds and trim fixtures
- 3 Axis CNC router for high volume, tight tolerance parts

Your Success. Our Success.

Let's Make Brand New Things Happen.

Headquarters: Elkhart, IN
Additional Manufacturing Facilities:
Milton, PA • Woodland, CA
Elkhart, IN • Centralia, WA
